

Black & White Series

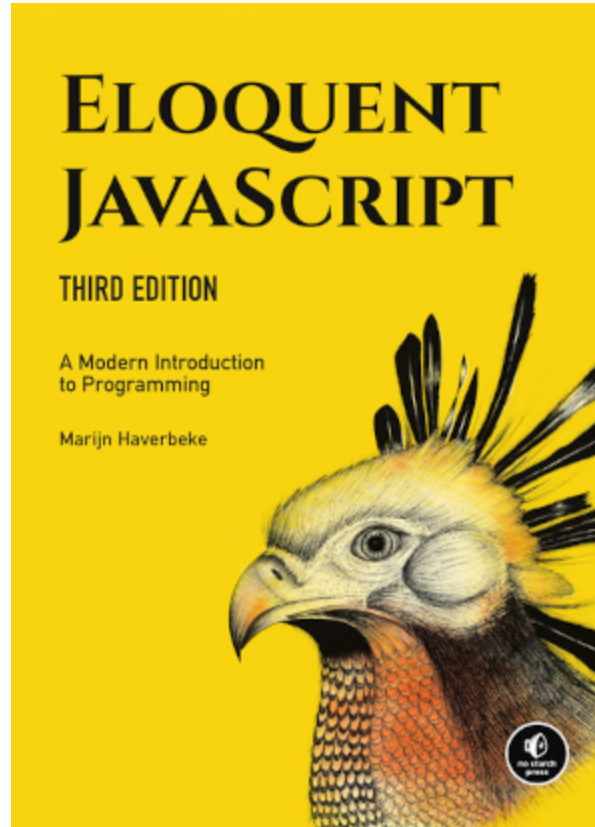

JavaScript Environment

JavaScript for C or Java Programmers

JavaScript

- Invented by Brendan Eich at Netscape
- ECMAScript -> standardization (ECMA, 2011)
- Originally for small in-browser scripts
- Local hardware access limitations
 - security
 - platform independence

Recommended Book

<https://eloquentjavascript.net/>

Experimental environment

Javascript Playground
(<https://playcode.io/>)

interactive environment ideal for starters

Inspection Output

```
console.log(<string>)
```

- A simple form of producing outputs for:
 - inspection
 - learning
- Not presented on the page
 - unfit for application output

```
console.log('The dinosaur jumped into the mud')
```
